Mr Mahyar Asadi, PhD, PEng, IWE  
CTO, Manager of Advanced Welding Engineering  
ENERGY & INDUSTRY DIVISION  
Applus+ Canada

Dear Mr Mahyar Asadi,

I am pleased to inform that your article 'Effect of the spot welding simulation strategy on analysis of performance in automotive parts' we published in 'Projektowanie i Konstrukcje Inżynierskie' magazine with your permission in November, was chosen by internet voters as the best ('most wanted') article from this issue.

Please accept my congratulations to you and all co-authors.

Yours truly,

Przemysław Zbierski  
Editor in Chief
